Multi Green QB Degreaser

PACK SIZES 20L,205L,100L

Multi Green QB Degreaser is a powerful citrus based quick- breaking detergent degreaser. Multi Green QB Degreaser is formulated to make easy work of grease, whilst mild enough to be used on all surfaces including soft metals, polished surfaces, and paintwork. Environmentally responsible it is ideal for everyday use around the workshop, mine site and farm.

Can be used for the removal of all oil, grease, dirt, grime on **Light Vehicles, Trucks Trailers, Agricultural equipment**. Safe to use on all metals when following instructions

Features & Benefits

- Powerful natural and renewable resource-based degreaser
- Environmentally friendly, Non-Toxic, Solvent Free, Non-Caustic, Non-Flammable, 100% biodegradable
- Low *VOC formulated to reduce “off-gassing”, non-carcinogenic.
- Quick break degreaser allowing oil and water to separate rapidly.
- May-be diluted depending on the level of soiling.
- Suitable for use in spray/foam applicators.
- Can be used in high pressure cleaners.
- Safe on – Metal, Rubber, Vinyl, Glass and Plastics when used as directed.

*VOC – Volatile Organic Compound

Application – USE DIRECTIONS:

- Product can be applied by low volume / low pressure Sprayer or hydro foaming system.
- Allow to penetrate for 5-10 minutes.
- Best results apply to a dry surface and do not allow product to dry on surface.
- Multi Green is applied neat or diluted. Test a small, innocuous area first.
- Spray evenly starting from top to bottom of the work area applying in a horizontal motion.
- Ensure all areas have an even coating.
- Rinse-off using a high -pressure cleaner preferably warm to hot water. Work off product with firm strokes from bottom to top, working horizontally with efficient purposeful strokes to remove product in a consistent manner. If streaking occurs, the application was too concentrated and a second diluted application may be necessary.

CAUTION: Do not leave product residue on surfaces, rinse well. MULTI GREEN can attack painted surfaces and polished aluminum if allowed to dry on these surfaces. Always patch test and dilute if required.

Health, Safety & Environment

SAFETY DIRECTIONS: Wear suitable protective clothing, gloves and eye/face protection. Keep out of reach of children. Read Safety Data Sheets (SDS) before using product.

RISK: Irritating to eyes and skin

No carcinogenic problems with use.

FIRST AID: For advice, contact a Poisons information Centre

(Phone Australia 13 11 26) or a doctor (at once). If swallowed, do NOT induce vomiting. If eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or at least 15 minutes. If skin, or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

SPILLS: Contain using sand/earth or other suitable material. Collect and seal in a labelled container for disposal.

FIRE: Nonflammable: Hazchem Code - None

TRANSPORT ROAD & RAIL: Not classified as Dangerous Goods
